

*Business on the Move* is distributed through The Very Enterprising Community Interest Company (CIC). A CIC is a form of social enterprise with an 'asset lock' that guarantees any surpluses are re-invested in the community.

*Business on the Move* is proud to be supported by The UnLtd Millennium Award Scheme as one of their 2012 winners

UnLtd is a charity which supports social entrepreneurs - people they judge to have the vision, drive, commitment and passion to change the world for the better.

They do this by providing support to help individuals make their ideas a reality.

## What teachers say:

"*Business on the Move* is an innovative and interactive educational resource which can be deployed in the classroom in a variety of ways to engage children in their learning. The additional activities provided make clear links to the curriculum and to the real world of business - *Business on the Move* has much to offer to move children's learning forward."  
(St John Vianney Primary School, Hartlepool)

"Being an Eco school, the reference to carbon footprints and CO<sub>2</sub> emissions, as well as the need to reduce pollution, made the game more relevant ..... The children were all engaged".  
(Sankey Valley St James' CE VA Primary School, Warrington)

"There are ample opportunities for pupils to be challenged. The game requires higher order thinking, logic and problem solving. There is good provision for all, particularly for gifted and talented, who took a lead when 'problems' arose. *Business on the Move* ensures challenge, cross curricular learning and pace. It is rare to find an activity that holds the attention of such a varied group for so long!"  
Criggleshstone St. James' CE (VC) J & I School, Wakefield)

Please note we have extremely limited availability and advise ordering copies asap to avoid disappointment.

## Delivering Learning at Key Stage 2

# ***Business on the Move***

## **An innovative business game that excites and inspires players of all age**

### **About the game**

*Business on the Move* challenges players to run a business that must respond to customers' orders, moving different products from China to their UK market by combinations of air, sea, rail and road as quickly, as profitably and as responsibly as they can.

What is the best way to deliver? What will it cost and will I make a profit? How should I grow my business? How can I achieve a low carbon footprint?

Suitable for KS2 pupils *Business on the Move* can be played at different levels, changing how the children play and even how they win.

### **Reality in the classroom**

Business partners from the logistics and retail sectors are at the heart of the game.

*Business on the Move* involves real businesses featuring as themselves.

The game then becomes a 'platform for learning' as players investigate the businesses behind the corporate names in the game.

Schools with a minimum of 3 games can download (at no extra cost) a range of learning activities, many especially created to enable young learners to understand more about how business works.

### **Curriculum Links**

An engaging resource which addresses the new National Curriculum, including

- Core subjects
- Foundation subjects
- Citizenship
- Cross-curricular aspects

*Business on the Move* enhances curriculum delivery in numerous ways:

- Ideal for Enterprise week
- Community engagement
- Versatile uses across subjects, ages and abilities
- Connecting classrooms and workplaces
- Broadening learning styles
- Opportunities to link with other schools around the world

Additional learning activities, developed with our sponsors, make *Business on the Move* much more than a board game.

It is enjoyable, engaging, tried and tested...it works!
